MODERN SILVER COINAGE 1985

THE SILVER INSTITUTE
Suite 101, 1026 16th Street, N.W., Washington, D.C. 20036 U.S.A.

INTRODUCTION

MODERN SILVER COINAGE 1985 provides complete information on all silver money issued in the calendar year 1985. The statistics have been verified by the monetary authorities and are the result of extensive contacts and consultations with ministries of finance, central banks, government and private mints, and numismatic experts throughout the world.

Physical characteristics of coins are given in millimeters, grams and troy ounces, for which the equivalents are shown below.

1 millimeter	= 0.03937 inch	1 troy ounce	= 1.097 avoirdupois ounces
1 gram	= 0.03215 troy ounce	1 troy ounce	= 31.103 grams
1 troy ounce	= 480 grains	1 million troy ounces	= 31.103 metric tons

The first pages of this report provide a Summary showing the area of origin, number of issues, the amount of pure silver used for coinage in each issuing area, and the amount used worldwide. Pages following the Summary are alphabetically arranged by geographic area. Specifications for each coin include its denomination, an abbreviation of the mint which struck the coin (identified at the back of the book), and an abbreviated description of the obverse and reverse of each coin.

Silver Coinages described in this book are money, denominated by the issuing authority in units of local currency or in troy ounces of pure silver content.

Number of Coins Issued refers to the number which became money in the calendar year 1985. If this number is unknown the authorized limit is shown with an asterick (*).

Silver Medals and Medallions not issued as money are not included in this compendium.

The preparation of this study has been made possible only by the generous cooperation of mint directors around the world, the governors of central banks, ministers of finance, economists and numismatic experts who have contributed liberally of their time and energy for the realization of Modern Silver Coinage 1985. We gratefully acknowledge their invaluable aid.

HOW TO PURCHASE THESE COINS

The silver coinages issued in 1985 were struck by the mints whose initials are given with each coin. The full names and addresses of the mints which produced them follow the statistical information. In some cases, monetary authorities have indicated that we refer inquiries and orders to different sales agencies rather than the mint. These exceptions and their sources are listed at the end of this book.
